SKILLS SUMMARY

- PHP, Python, JS, TS, React, HTML
- UML, PHPUnit, xDebug, Chia
- AWS S3 & CloudFront
- Postman & Bruno
- Draw.io for UML & Flow charting
- VSCode
- Markdown, Mermaid, UML
- Process & Data Flow charting
- OAuth, JWT
- MVC Frameworks
- CodeIgniter 2, 3, & 4
- Laravel
- OOP programming
- Developing APIs & Automations
- Apache/IIS, MySQL/MSSQL
- Github/Gitlab
- PHPUnit, PEST, xDebug
- DevOps
- Docker, ESX, VirtualBox
- Shell Scripting - BASH, CMD, & PowerShell
- Network Switching & Routing
- Windows & Linux Server Admin
- MSSQL & MySQL Administration
- Wireless Technologies
- SQL Workbench & phpMyAdmin
- VPNs - OpenVPN
- MSOffice

CERTS & AWARDS

- ACE-T Level 10
<https://lookup.ace-t.mctf.io/?id=1554285>
- GIAC Continuous Monitoring Certification (GMON)
<https://www.credly.com/badges/e99ac45a-d9ba-4613-80c5-deffebe40457>
- Assoc. in Applied Science, Computer Info Tech
- Assoc. in Applied Science, Networking Tech
- Multiple certificates from online courses
- 2 Navy & Marine Achievement Medals

EDUCATIONAL SUMMARY

- Coursera - Advanced MySQL Topics By Meta
- BHIS - Modern WebApp Pentesting
- BHIS - Modern WebApp Pentesting 2: WebApp Internals
- SANS - SEC504 Hacker Tools, Techniques, Exploits and Incident Handling
- SANS - SEC511 Continuous Monitoring and Security Operations
- SANS - SEC455 SIEM Design & Implementation
- Wilkes Community College
- US Navy - Nuclear trained

Randy LeFever

Full Stack Developer

Server/Network Administrator

LinkedIn: <https://www.linkedin.com/in/randy-lefever-42a2b93a0/>

Full Resume: <https://lefever-enterprises.com/>

Summary

Full Stack Developer with 25+ years developing solutions with experience in Python, PHP, JS, TS, Git, Github/Gitlab, MySQL, MSSQL, Apache, & IIS. Also experienced in DevOps for projects, Administering Linux & Windows servers, Email & Database servers in physical & virtual environments, and knowledgeable in security concepts.

Goal

Use my development skills to solve problems and produce useful applications & automations that benefit the company and the end user.

Current Projects

- Blackhills Information Security - 2021 - Present
 - Developed Data Management site to allow consolidation of Paywalls for single point reporting

 - Developed site to allow signups for CyberRange Subscriptions through PayPal
 - Developed interface Python scripts for OpenVPN operation
- Technical consultant for Ebenezers Childrens Home Non-Profit providing
 - Server Admin services
 - Networking services
 - Security related advice
 - Workstation troubleshooting & maintenance
- Maintain Website & Email hosting services for past PCSource customers
- Develop & Maintain websites for past PCSource customers
- Provide PC Tech Support & Consulting to past PCSource customers

Past Projects

- Blackhills Information Security - 04/26/2021 - 05/31/2026
 - PayPal CyberRange OpenVPN Automation
- Salem NationalLease - 04/26/2014 - 10/19/2022
 - HR Document Management System
 - IT Helpdesk ticketing System
 - Tasklist System
 - Shop Inspection System
 - In-house Sales tracking platform
 - Dispatcher load exception tracking system
- PCSource Inc. - 08/01/2001 - 04/26/2014
 - Developed Point of Sale
 - Ecommerce Websites
 - Static & Dynamic Informational Websites for customers
- US Navy - 11/22/1988 - 08/01/2001
 - Digitize training materials & testing

Education

- 2025 - Udemy - Stakeholder Management | Project Management Fundamentals
- 2025 - Udemy - All About Lambda & Serverless
- 2025 - Udemy - Microservices Architecture: A Conceptual Overview
- 2025 - Coursera - Advanced MySQL Topics By Meta
- 2023 - TechWorld - DevOps Bootcamp from TechWorld
- 2023 - BHIS - Modern WebApp Pentesting 2: WebApp Internals
- 2022 - Cybrary - Post Exploitation Hacking
- 2022 - Cybrary - Attacks & Persistence for Incident Handlers
- 2021 - BHIS - Modern WebApp Pentesting
- 2021 - BHIS - Getting Started in Security with BHIS & MITRE Att&ck
- 2021 - BHIS - Enterprise Attack Emulation & C2 Implant
